Imprivata Patient Privacy Intelligence auditing for Meditech EHR systems

The patient privacy monitoring solution to monitor and alert on risk to your Meditech EHRs

Imprivata FairWarning Patient Privacy Intelligence is a digital identity intelligence solution that delivers full lifecycle privacy monitoring specifically tailored to support the unique requirements of a Meditech environment. The automated approach – powered by AI, machine learning, and behavioral analytics – allows you to manage day-to-day operations and internal access concerns efficiently and effectively.

Monitoring for Meditech

Imprivata FairWarning Patient Privacy Intelligence can audit your organization's Meditech EHR, including Meditech, Meditech Magic, Meditech 6.0, and Meditech Expanse. Our team of engineers has been working with the Meditech team for years to coordinate data transfers, helping to ensure a smooth process when sending data to your Imprivata FairWarning Patient Privacy Intelligence application.

The Imprivata advantage

Industry leading standards

Imprivata FairWarning pioneered EHR risk analytics, working hand-in-hand with leading vendors to deliver a healthcare-first approach to monitoring and prevention.

With Imprivata FairWarning Patient Privacy Intelligence auditing for your Meditech EHR, you can:

- Protect patient privacy at scale

- Save time investigating potential internal access violations within your Meditech instance(s)

- Gain a 360-degree view with out-of-the-box and custom reporting on access to your Meditech EHR network

Healthcare-first approach to data ingestion

Imprivata leverages our keen understanding of healthcare workflows to provide automated data ingestion at the most optimal times for healthcare organizations, meaning there is no impact on your Meditech instance(s) or clinical performance.

Digital identity maturity

Imprivata FairWarning contributes broadly across the Imprivata Digital Identity Framework, which presents a blueprint for managing identities across healthcare organizations' complex systems.

Monitor access to your Meditech EHR environments with Imprivata FairWarning Patient Privacy Intelligence to get the most out of your patient privacy monitoring program.

imprivata®

Imprivata is the digital identity company for mission- and life-critical industries, redefining how organizations solve complex workflow, security, and compliance challenges with solutions that protect critical data and applications without workflow disruption. Its platform of interoperable identity, authentication, and access management solutions enables organizations in over 45 countries to fully manage and secure all enterprise and third-party digital identities by establishing trust between people, technology, and information.
